

# **Trends in Army Training Systems Investments**

Training & Simulations Industry Symposium  
(TSIS)

14 June 2016

*HQDA G-37/TRS*

Readiness is #1; Sustainable Readiness is the Army's model

Army Cdrs are aggressively expanding Home Station Training to achieve Sustainable Readiness

The Training Support System (TSS) enables HS Training and Readiness by delivering Services, **Products** & Facilities at installation level

TSS **Products** managed by the "TRIAD" of:

*HQDA G-37/ Director of Training: Policy, Strategies & Resources*

*TRADOC USACAC-Training: Requirements*

*PEO STRI: TSS Products Acquisition; Life-Cycle & Sustainment*

TSS Resources are Finite – new requirements must be balanced against those to sustain existing systems and capabilities

Industry is essential to TSS; however, our performance (together) has had mixed results

## ***TOPICS....***

- Readiness: THE Army Priority
- The Army is Training
- The Army's Training Support System (TSS)
- TSS Products Investments

## GEN Mark A. Milley, 39<sup>th</sup> CSA... Readiness is the Army's #1 Priority.

**SRM:** Sustainable Readiness Model;  
places all units in one of three conditions  
of readiness...

- Prepare
- Ready
- Mission

**COTR:** Cost of Training Readiness; seeks  
to trace all Army training investments to their  
effect of Unit Readiness.

**Obj T:** Objective "T"; makes Commander's  
rating of Training Readiness in the Unit Status  
Report (USR) more objective.

GEN Milley, 39th Chief of Staff of the Army

From His Initial Message to the Army

### Priority Number One

**#1. Readiness: (Current Fight).** Our fundamental task is like no other - it is to win in the unforgiving crucible of ground combat. We must ensure the Army remains ready as the world's premier combat force. Readiness for ground combat is - and will remain - the U.S. Army's #1 priority. We will always be ready to fight today, and we will always prepare to fight tomorrow. Our most valued assets, indeed, the Nation's most valued assets, are our Soldiers and our solemn commitment must always be to never send them into harm's way untrained, poorly led, undermanned, or with less than the best equipment we can provide. *Readiness is #1, and there is no other #1.*

MARK A. MILLEY  
General, United States Army  
39th Chief of Staff of the Army

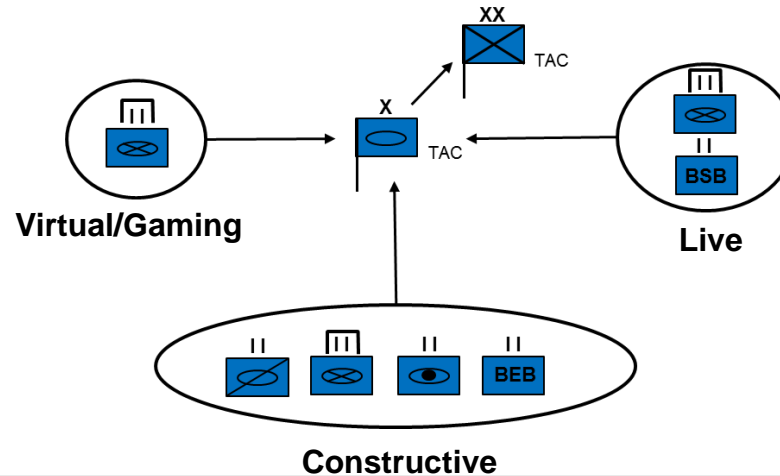

## Army G-3/5/7

**Mission Statement:** 1ID builds leaders prepared for combat operations within a fully enabled live, constructive, and virtual METL-focused and multi-echeloned environment through key collective home station training from 28APR – 3 JUN16. This training will include CO STX, CO CALFEX, a BDE FTX, and BDE/ BN FCXs.

### Virtual/ Gaming (CCTT/AVCATT)

#### Virtual (Attack)

- Shaping Operation 1
- 1 x BN TF in CCTT
- Enablers task organized to support the virtual units

### Live (HITS/ MILES)

#### Live/ Force on Force (Attack)

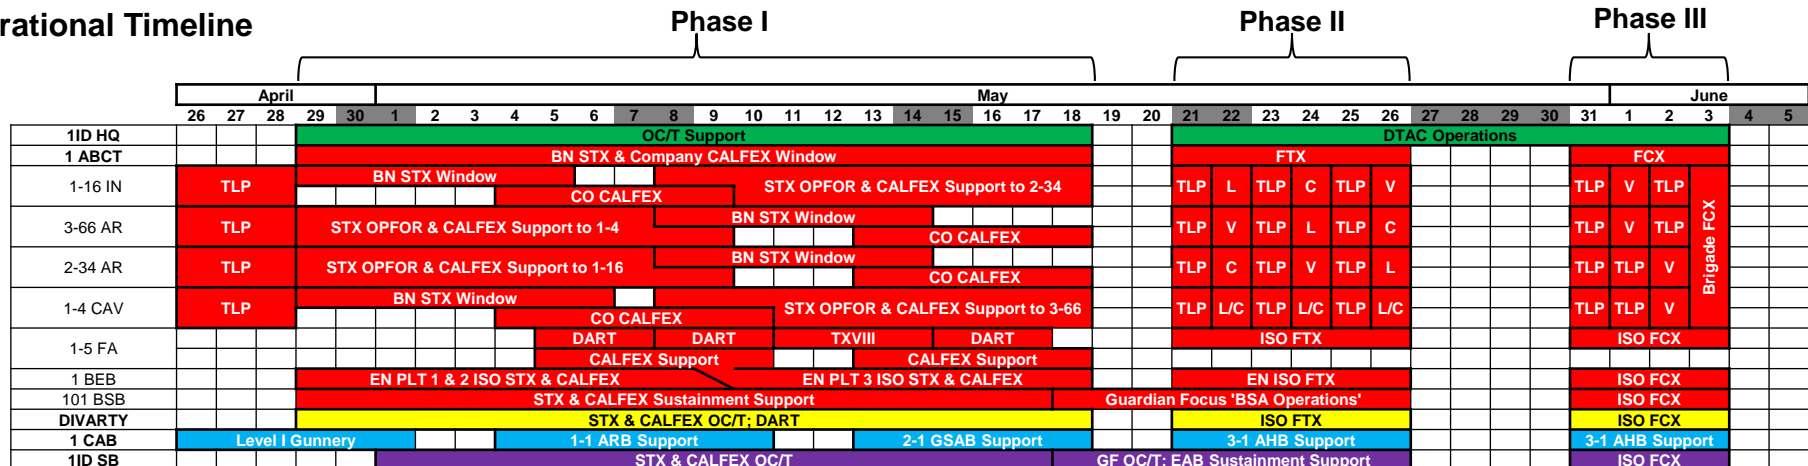

- Decisive Operation
- 1 x BN TF (task organized with EN, CCA, Fires)
- 101BSB – BSA established

### Constructive (MTC)

#### Constructive (Attack)

- Shaping Operation 2 & 3, Reserve, FA BN, and BEB
- Inject driven operations at the CO feeding the BN TAC's

## Operational Timeline

C: Constructive L: Live/ Force on Force V: Virtual/ Gaming

## JPMRC ready for Rot 16-02, Arctic Anvil and Planning for Rot 17-01, Lightning Forge

Left: The Joint Pacific Multinational Readiness Capability-Instrumentation System (JPMRC-IS) is loaded onto the “MV Mahimahi” at the Honolulu Harbor Piers to ship to Alaska in support of JPMRC Rotation 16-02 Arctic Anvil which runs from July 23 – 3 August. This rotation will test the organization’s ability to deploy to another location within the U.S. Army Pacific Area of Responsibility, enhance the training of a combat brigade, and redeploy the system back to its home station on Schofield Barracks, Hawaii.

UNCLASSIFIED // FRODO

Right: JPMRC and 196<sup>th</sup> Infantry Brigade personnel attended the JPMRC Rotation 17-01 Lightning Forge Main Planning Workshop (MPW) May 24-26 at the Mission Training Complex on Schofield Barracks Hawaii. The workshop will help with the preparations for the upcoming rotation, the third iteration of Lightning Forge with JPMRC. The MPW allowed personnel to plan and work on the scenario development, logistics, IS coverage, and

System of Systems

# TSS Portfolio Balance

## TSS Products Acquisition & Sustainment

**Army G-3/5/7**

- TOA (POM 18 RDA Funding)
- - - Exceed TOA

- Internally assess each TSS Sub-Portfolio:

- Services
- Facilities
- Products**

TOA: Prior POM Funding

- For each TSS Sub-Portfolio:

1. Identify Emerging Requirements (E/R)
2. Identify Efficiencies
3. Subtract Efficiencies from E/R to identify Net E/R
4. Identify "Trade Space (Billpayers)" from existing TOA to cover Net E/R.

- Balance across the Sub-Portfolios

## **Army G-3/5/7**

***I-MILES: Instrumentable MILES***

***JPMRC-IS: Joint Pacific Multinational Readiness Capability Instrumentation System***

***JLCCTC-ERF: Joint Land Component Constructive Training Capability – Entity Resolution Federation***

***I-MTS: Instrumented Military Operations on Urban Terrain Training System***

***EST: Engagement Skills Trainer***
